

Surry Hills North

Existing Character

The Surry Hills North Neighbourhood includes significant small scale retail areas.

The area’s topography rises to a local high point , providing significant views to the north

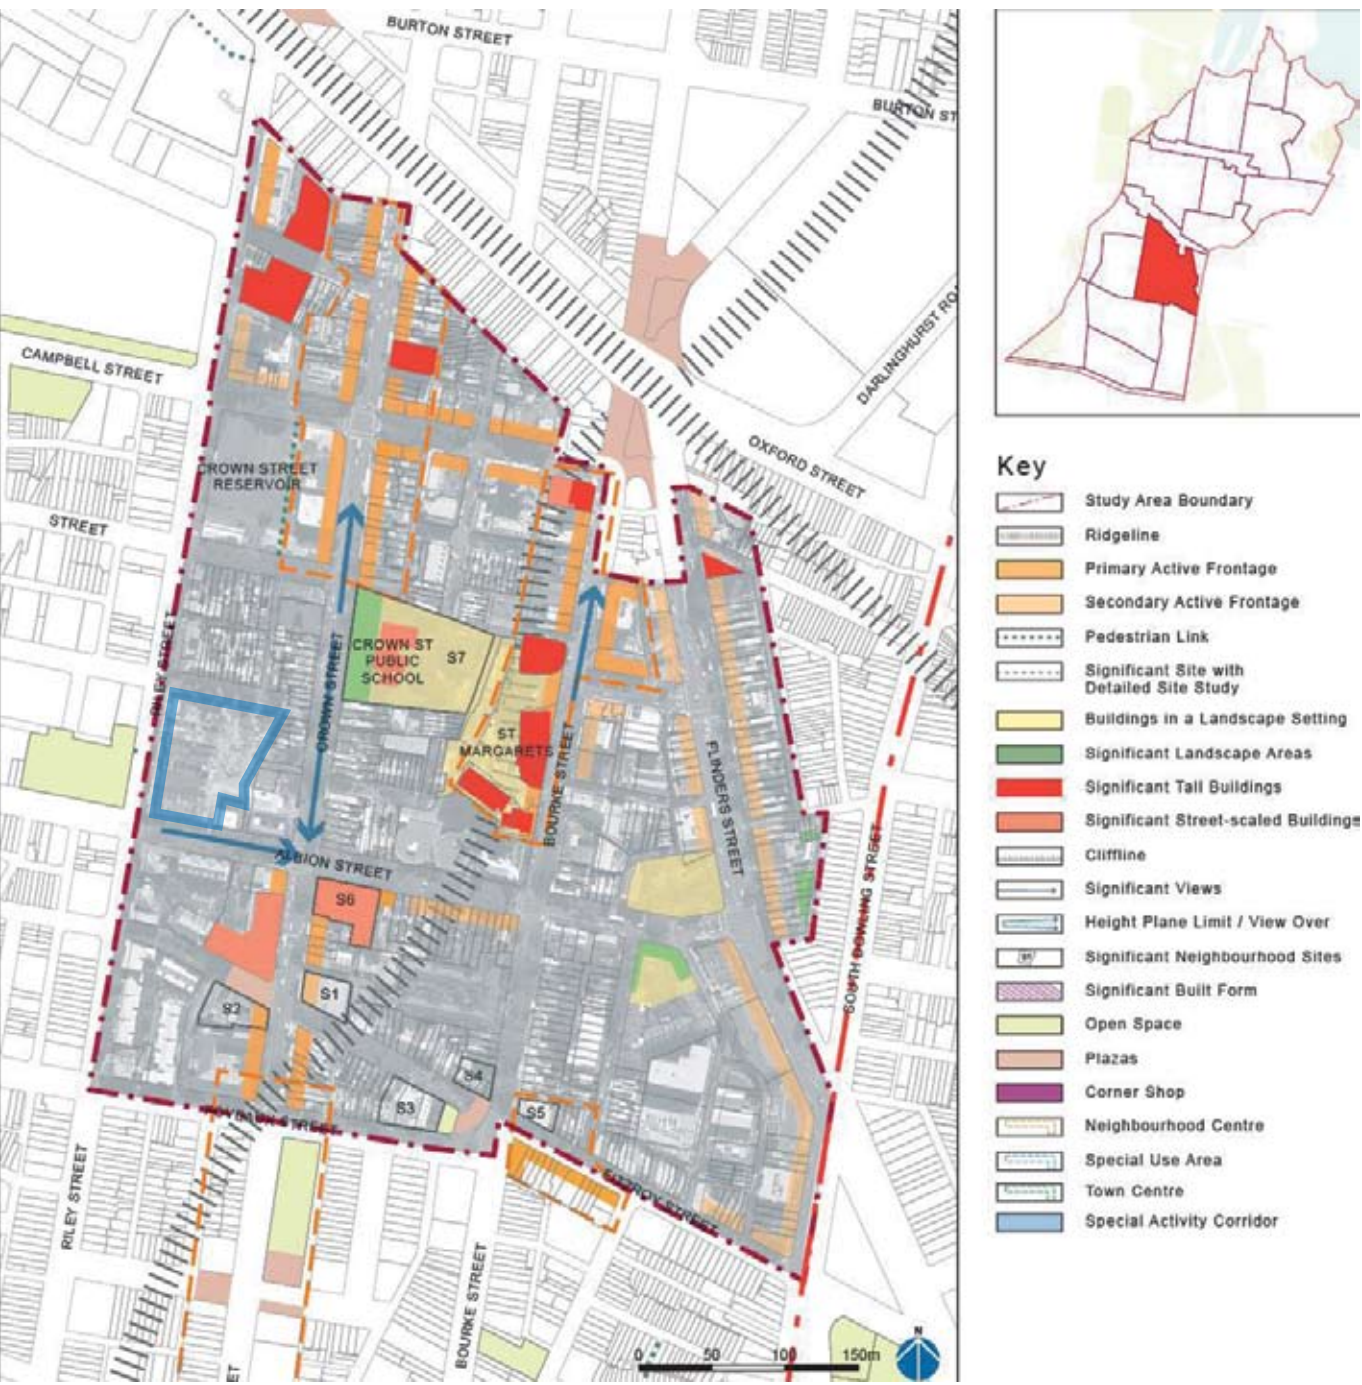

Significant mature street trees and wide streets are typical particularly in the area’s south, contributing to a green neighbourhood character.

Active retail uses are concentrated along Crown St and the northern end of Bourke Street.

Future Character Vision

The Surry Hills North neighbourhood will continue to function as the primary retail/cafe precinct within Surry Hills. These active uses will remain concentrated along Crown Street and Bourke St north.

The consistent awnings which characterise the streetscape in these areas will be maintained and contribute to a high quality pedestrian environment.

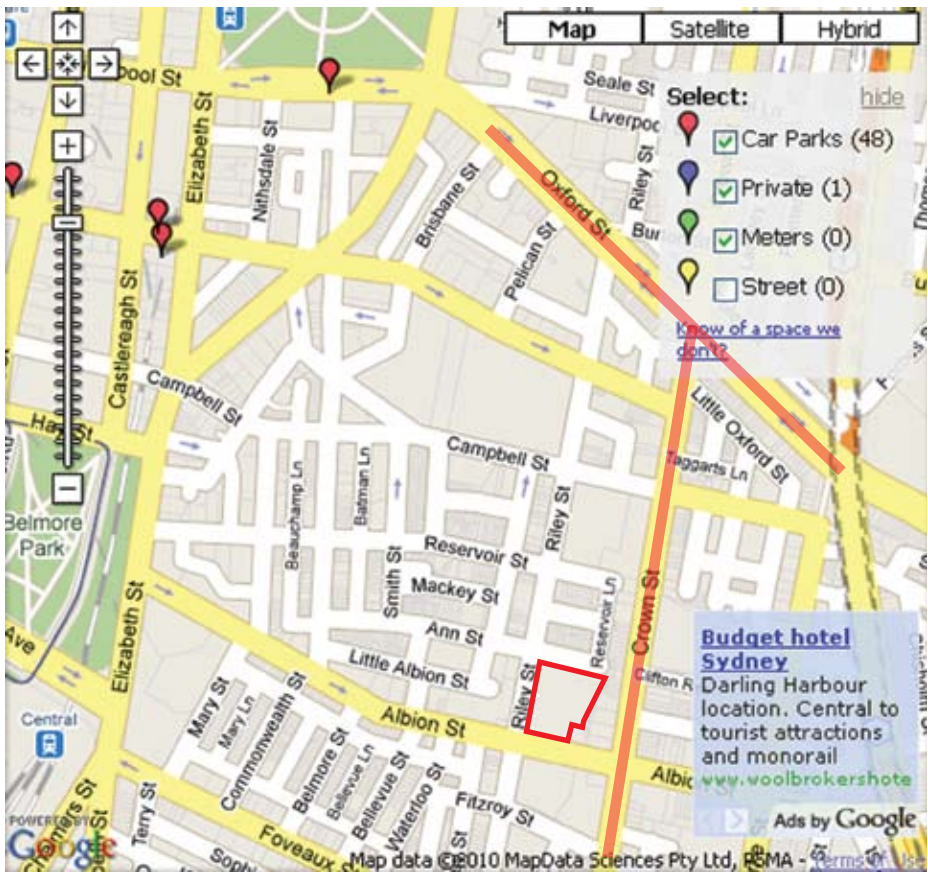

Locational advantages of Surry Hills
